120 years united to you

120 years united with you, building cities to live, executing and developing civil works projects and singular building that have made us a benchmark for the sector, nationally and internationally.

Throughout all these years, we have been able to adapt and overcome different situations, reaching a responsible growth model based on the value creation.

Sustainability is very important for FCC Construcción and is imbued in the production processes and in the day to day of the company, that is why our activities contribute to progress towards the achievement of the **Goals of Sustainable Development**.

Now more than ever everyone we must work to create an unstoppable force and reach the global goals.
